Letter of Recommendation

To whom it may concern,

It was an absolute pleasure working with Lerato Ditshego as a moderator at our recent function, the Nordic Sustainable Mining event in Cape Town the 7th of February 2023, where she controlled and distinguished herself as an asset through her high level of professionalism and quick to delve into the mining sector that she had limited knowledge of and still be able to excel on the day with energy, understanding of the theme and huge positivity.

The event was structured around the Nordic Sustainability Mining event which was co-hosted the embassies of Sweden Finland and Denmark and key stakeholders in the South African Mining Sector where invited. We had different guest speakers presenting solutions for sustainable mining, that use less energy and water, making them vital for the just energy transition in South Africa. Prominent names such as the Nordic Ambassador's and high level South African politicians were present and Lerato moderated the event to perfection.

Choosing Lerato to facilitate your event would be a great decision. Lerato is very engaged in the way she prepares for the job, is highly professional and a wonder to work with.

We wholeheartedly endorse Lerato for all work involving event facilitation.

Yours faithfully

JABULANE HADEBE
